Surat, Gujarat  
CGPA : 6.51

**P. P. SAVANI**  
**CHAITANYA VIDYA**  
**SANKUL(HSC)**

2020 – 2021

Percentage : 63.3

**ARCHANA VIDHYA**  
**SANKUL**  
**(SSC)**

2018 – 2019

Percentage : 61.6

### PROJECTS

#### AI-Powered Blogging Platform

Developed a full-stack AI-driven blogging platform that automatically generates SEO-optimized blog posts, meta descriptions, trending keywords, and category-wise content using OpenAI APIs. Integrated image generation, automated posting workflows, and admin tools to streamline content creation. The system supports end-to-end blog management, including content generation, editing, publishing, and website testing automation.

**Technologies Used:** Node.js, Express, MongoDB, OpenAI API, Cloudinary (image hosting), Frontend (React/HTML/CSS), GitHub Copilot for automated testing

#### Random Activity Generator

Built a RESTful API service that generates random activities and supports full CRUD operations (GET, POST, PUT, PATCH, DELETE) for activity management. It provides dynamic task suggestions and customizable activity handling.

**Technologies Used:** Node.js, Express, Bored API

#### Instagram Media Downloader

Developed a full-stack web-application that enables users to download Instagram posts, reels, and thumbnails by providing a URL. Implemented efficient content parsing and optimized front-end workflows for a seamless user experience.

**Technologies used:** Node.js, Express, React, Angular, and Next.js

#### Library Management

Designed a platform for managing books, tracking on book, and generating invoices for book.

**Technologies used:** HTML, CSS, PHP, MySQL

# SKILLS

## Programming Languages
